| Team ID | |
| Project Name | Smart Library Request Workflow in ServiceNow |
| Maximum Marks | 2 Marks |

**Proposed Solution :**

| S.No | Parameter | Description |
|---|---|---|
| 1. | Problem Statement (Problem to be solved) | The existing library system relies on manual processes for book requests and approvals, leading to delays, inefficiency, and lack of tracking. |
| 2. | Idea / Solution description | The solution is to develop an automated Smart Library Request Workflow using ServiceNow to manage requests, approvals, and notifications. |
| 3. | Novelty / Uniqueness | Uses Flow Designer, automated approvals, ema replace manual processes. |
| 4. | Social Impact / Customer Satisfaction | Improves efficiency, reduces errors, saves time, and enhances user satisfaction for students and librarians. |
| 5. | Business Model (Revenue Model) | Can be used in institutions to reduce operational costs and improve resource management. |
| 6. | Scalability of the Solution | Easily scalable to multiple libraries and can integrate additional features like tracking and reporting. |
