Proposed Solution:

S.No	Parameter	Description
1.	Problem Statement (Problem to be solved)	The existing library system relies on manual processes for book requests and approvals, leading to delays, inefficiency, and lack of tracking.
2.	Idea / Solution description	The solution is to develop an automated Smart Library Request Workflow using ServiceNow to manage requests, approvals, and notifications.
3.	Novelty / Uniqueness	Uses Flow Designer, automated approvals, ema replace manual processes.
4.	Social Impact / Customer Satisfaction	Improves efficiency, reduces errors, saves time, and enhances user satisfaction for students and librarians.
5.	Business Model (Revenue Model)	Can be used in institutions to reduce operational costs and improve resource management.
6.	Scalability of the Solution	Easily scalable to multiple libraries and can integrate additional features like tracking and reporting.
